

IMPACT REPORT 2020

The Vermont Suicide Prevention Center (VTSPC) is a public-private partnership of the Center for Health and Learning with the VT Agency of Human Services and many partner organizations and individuals. The mission is to create health-promoting communities in which people have the knowledge, attitudes, skills, and resources to reduce suicides in Vermont.

POSTVENTION IS PREVENTION

VTSPC is often a point of contact on immediate response during postvention, connecting people to mental health agencies, support and other resources.

“The two-day training was excellent.

I particularly appreciated having the time to focus on this important work and update our school procedures with my colleague who I attended with. I know that we are both looking forward to doing more with this work in the coming year.”
